C language · C++ · Java fullstack · Typescript · Hibernate · Spring Boot · SQL · Python · HTML · CSS · Javascript · Bootstrap · RPA (Automation Anywhere) · React (basic) · Angular (basic)

PERSONAL PROJECTS

Full Stack E-Commerce website with Angular and Java Spring Boot
- Full-Stack E-Commerce Website: Developed a full-stack e-commerce website using Angular and Java Spring Boot, implemented features such as user authentication, shopping cart, and payment gateway integration, utilized Agile methodologies, implemented HTTPS for communication between front-end and back-end

React Movie App
- I have created a React Movie App as part of my web development portfolio. The app allows users to search for and view information about their favorite movies and TV shows. I utilized the OMDB API to retrieve movie data and the React framework to create a seamless user experience. This project highlights my expertise in using modern web development technologies and my ability to build functional and user-friendly applications.

Personal Portfolio ⬈
- Personal Portfolio website using HTML, CSS and Javascript and Bootstrap framework
